Rail Freight Corridor North Sea Baltic – Your East West Rail Bridge across Europe!

Border coordinator at Oderbrücke border station

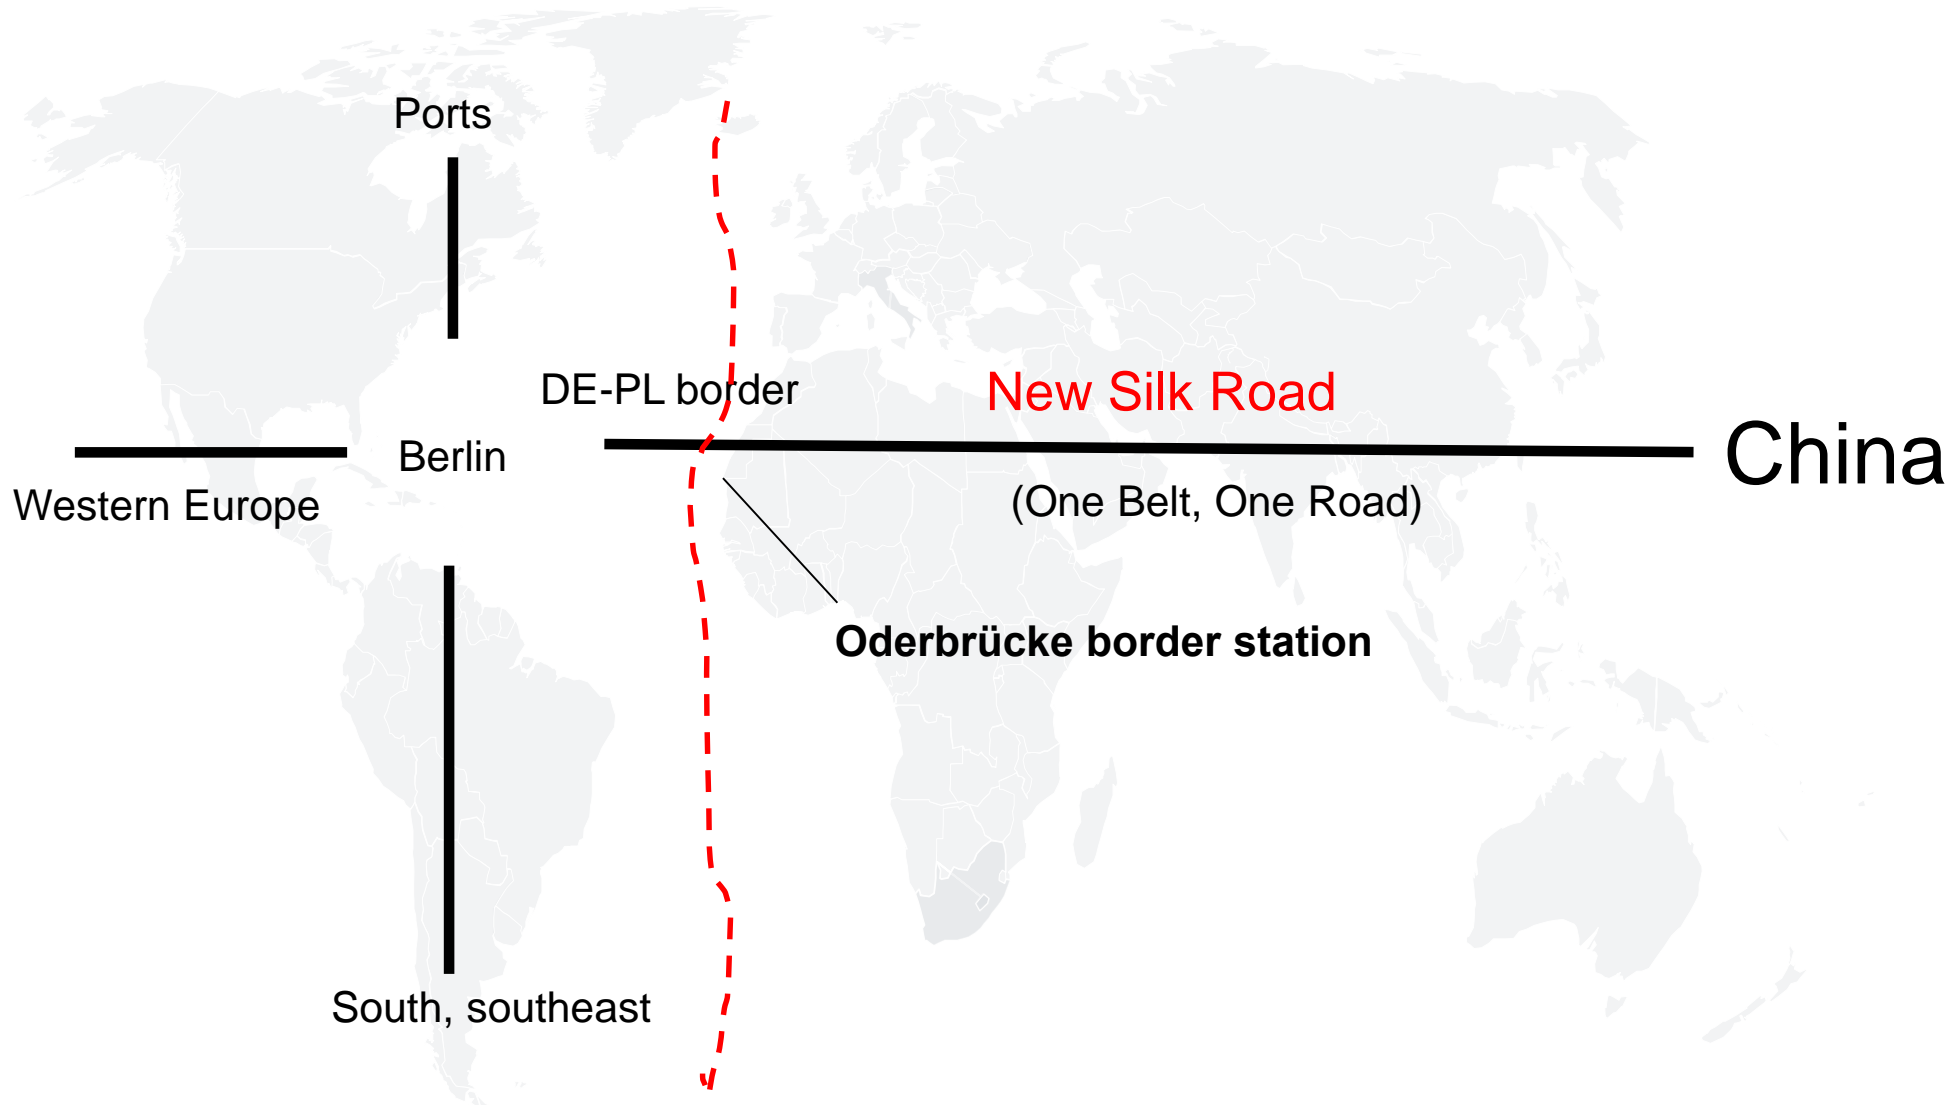

RAG/TAG Meeting on 27th March 2019
Berlin

Susanne Lewandowsky
DB Netz AG

Co-financed by the Connecting Europe
Facility of the European Union

Oderbrücke border station, from bottleneck to New Silk Road

Border traffic at Oderbrücke border crossing

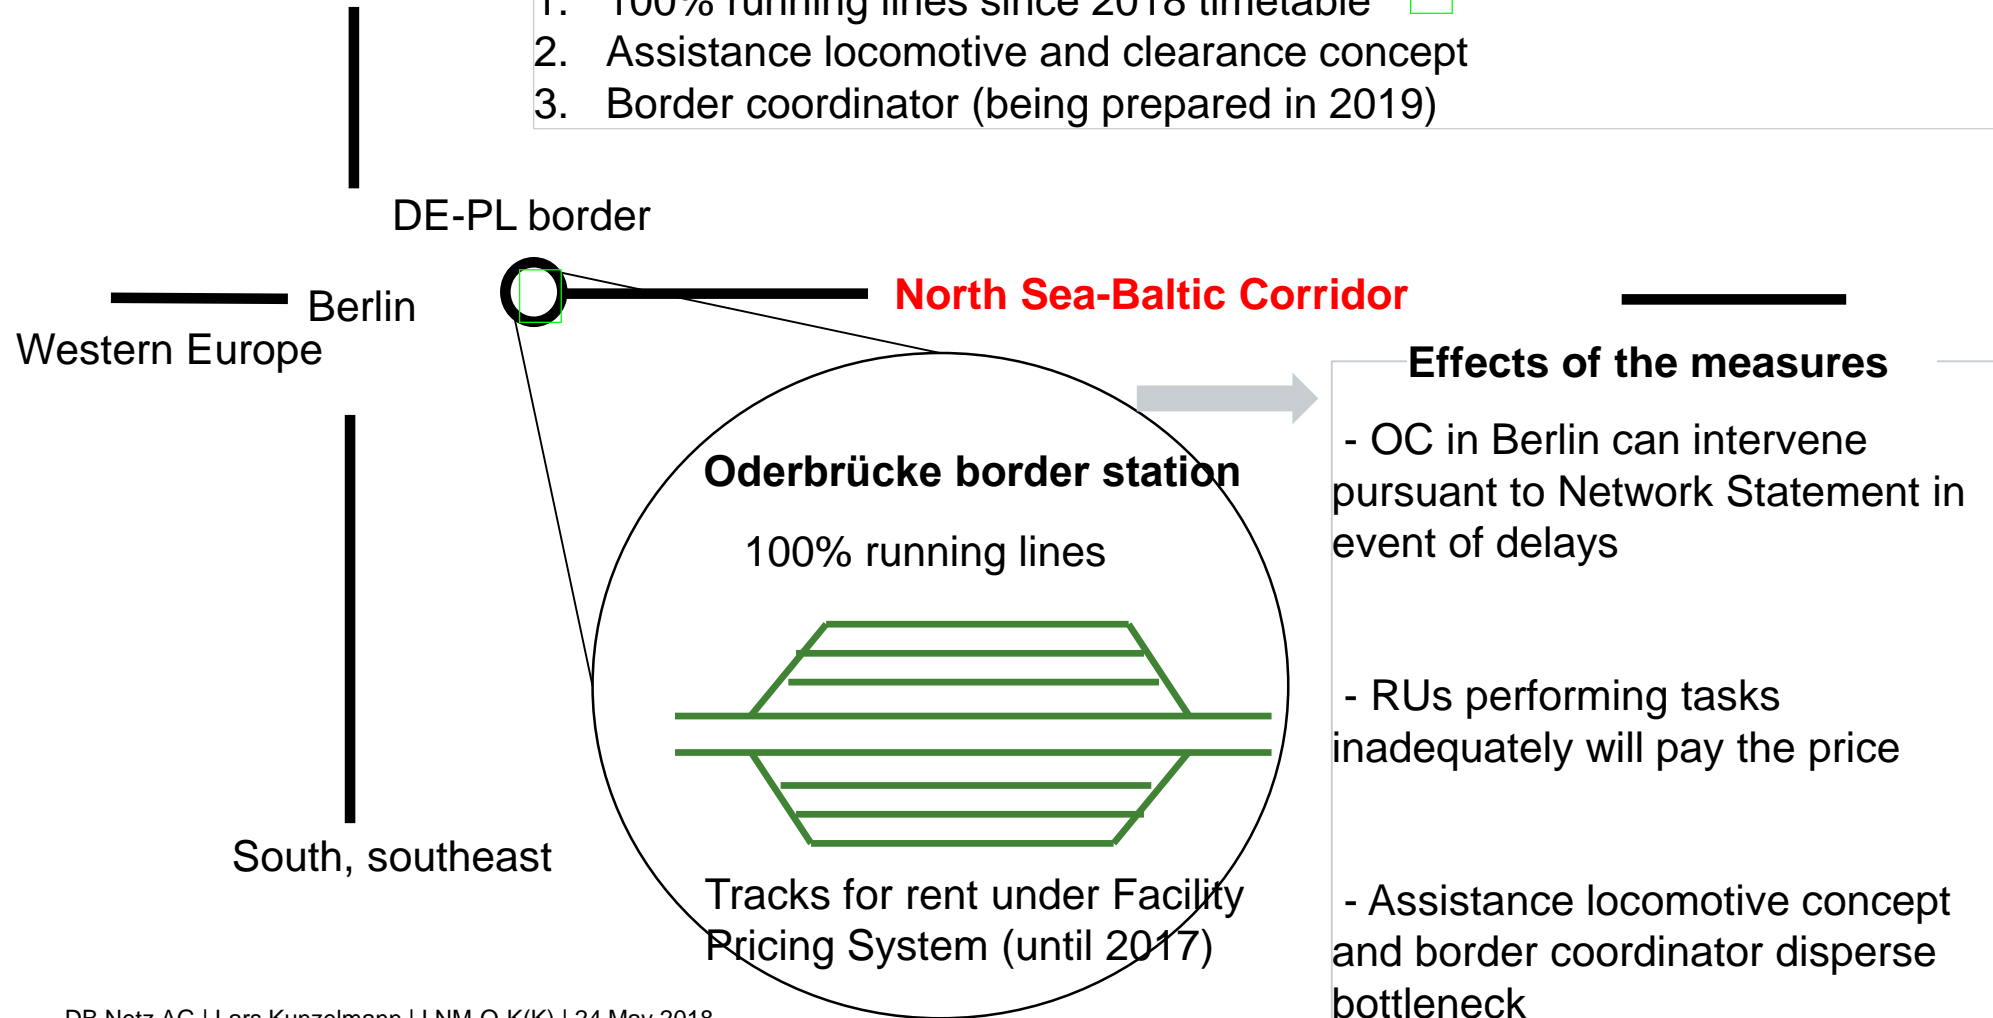

Total entries and exits in 2018

Oderbrücke border station (BODK), from bottleneck to reliable corridor

Shape-up programme for BODK:

1. 100% running lines since 2018 timetable
2. Assistance locomotive and clearance concept
3. Border coordinator (being prepared in 2019)

Border coordinator at Oderbrücke border station, definition and responsibilities

Having a border coordinator at Oderbrücke border station is expected to result in a marked increase in quality in the use of limited resources.

The person supports all participating parties in their mutual interest for lean and productive processes.

Better use can be made of available capacities if the planned and contractually agreed usage times for the running lines are adhered to.

The purpose of the border coordinator's activities is to allow all RUs to pass through the Oderbrücke border point quickly to save time.

To this end, the RUs are required to inform the border coordinator actively of any deviations from the timetable or other particularities regularly and in good time.

The dispatcher's responsibilities, such as deciding which track is selected, etc., remain unaffected by this.

Thank you
